

MakeMyTrip adds new features on Web site

Our Bureau

Bangalore, April 16

MakeMyTrip, online travel portal, has added new features on the Web site to provide comprehensive travel solutions to international travellers. Visitors to the MakeMyTrip Web-site can now compare and book all available flight options to any international destination.

To add to their convenience, this innovative international flight-booking engine only displays options that are ready-to-book. Along with the superior international hotel-booking engine, this offering will comprehensively address the needs of globe-trotting Indians.

The MakeMyTrip Web site now provides access to 40,000 international hotels that can be booked real-time.

Following this offering, MakeMyTrip expects the revenue-share contributed by international flight tickets to its entire flights business to grow by 30-40 per cent.
